To Whom It May Concern:

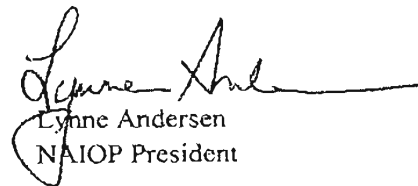

NAIOP New Mexico respectfully requests your support of Tax Increment Development Districts (TIDDs). We believe TIDDs are a wise economic development tool that will benefit the state with right-sized infrastructure that will attract new businesses and industries to New Mexico.

TIDDs will enable New Mexico to more successfully compete for new investment from industries and companies that will bring high-wage jobs to the state.

Infrastructure done right will also increase net revenues to the local and state government as it grows the tax base.

Your support of this smart development mechanism will have multiple benefits in both the short and long term for our entire community. Your support for this smart development mechanism will have multiple benefits in both the short and long term for our entire community. Thank you for your consideration.

Sincerely,

Lynne Andersen
NAIOP President
